Statement of Deficiencies	**(X1) Provider/Supplier/CLIA Identification Number**	**(X3) Date Survey Completed**
	55C0001076	07/10/2019
Name of Provider or Supplier	**Street Address, City, State**	
Plastic Surg Assoc Of Orange County	1310 Stewart Drive, Suite 610, Orange, CA	

For information on the provider's plan to correct this deficiency, please contact the provider or the state survey agency.

(X4) ID Prefix Tag	**Summary Statement of Deficiencies** (Each deficiency should be preceded by full regulatory or LSC identifying information)
E0039	EP Testing Requirements CFR(s): 416.54(d)(2) 416.54(d)(2), 418.113(d)(2), 441.184(d)(2), 460.84(d)(2), 482.15(d)(2), 483.73(d)(2), 483.475(d)(2), 484.102(d)(2), 485.68(d)(2), 485.625(d)(2), 485.727(d)(2), 485.920(d)(2), 491.12(d)(2), 494.62(d)(2). *[For ASCs at 416.54, CORFs at 485.68, OPO, "Organizations" under 485.727, CMHCs at 485.920, RHCs/FQHCs at 491.12, and ESRD Facilities at 494.62]: (2) Testing. The [facility] must conduct exercises to test the emergency plan annually. The [facility] must do all of the following: (i) Participate in a full-scale exercise that is community-based every 2 years; or (A) When a community-based exercise is not accessible, conduct a facility-based functional exercise every 2 years; or (B) If the [facility] experiences an actual natural or man-made emergency that requires activation of the emergency plan, the [facility] is exempt from engaging in its next required community-based or individual, facility-based functional exercise following the onset of the actual event. (ii) Conduct an additional exercise at least every 2 years, opposite the year the full-scale or functional exercise under paragraph (d)(2)(i) of this section is conducted, that may include, but is not limited to the following: (A) A second full-scale exercise that is community-based or individual, facility-based functional exercise; or (B) A mock disaster drill; or (C) A tabletop exercise or workshop that is led by a facilitator and includes a group discussion using a narrated, clinically-relevant emergency scenario, and a set of problem statements, directed messages, or prepared questions designed to challenge an emergency plan. (iii) Analyze the [facility's] response to and maintain documentation of all drills, tabletop exercises, and emergency events, and revise the [facility's] emergency plan, as needed. *[For Hospices at 418.113(d):] (2) Testing for hospices that provide care in the patient's home. The hospice must conduct exercises to test the emergency plan at least annually. The hospice must do the following: (i) Participate in a full-scale exercise that is community based every 2 years; or (A) When a community based exercise is not accessible, conduct an individual facility based functional exercise every 2 years; or (B) If the hospice experiences a natural or

man-made emergency that requires activation of the emergency plan, the hospital is exempt from engaging in its next required full scale community-based exercise or individual facility-based functional exercise following the onset of the emergency event. (ii) Conduct an additional exercise every 2 years, opposite the year the full-scale or functional exercise under paragraph (d)(2)(i) of this section is conducted, that may include, but is not limited to the following: (A) A second full-scale exercise that is community-based or a facility based functional exercise; or (B) A mock disaster drill; or (C) A tabletop exercise or workshop that is led by a facilitator and includes a group discussion using a narrated, clinically-relevant emergency scenario, and a set of problem statements, directed messages, or prepared questions designed to challenge an emergency plan. (3) Testing for hospices that provide inpatient care directly. The hospice must conduct exercises to test the emergency plan twice per year. The hospice must do the following: (i) Participate in an annual full-scale exercise that is community-based; or (A) When a community-based exercise is not accessible, conduct an annual individual facility-based functional exercise; or (B) If the hospice experiences a natural or man-made emergency that requires activation of the emergency plan, the hospice is exempt from engaging in its next required full-scale community based or facility-based functional exercise following the onset of the emergency event. (ii) Conduct an additional annual exercise that may include, but is not limited to the following: (A) A second full-scale exercise that is community-based or a facility based functional exercise; or (B) A mock disaster drill; or (C) A tabletop exercise or workshop led by a facilitator that includes a group discussion using a narrated, clinically-relevant emergency scenario, and a set of problem statements, directed messages, or prepared questions designed to challenge an emergency plan. (iii) Analyze the hospice's response to and maintain documentation of all drills, tabletop exercises, and emergency events and revise the hospice's emergency plan, as needed. *[For PRFTs at 441.184(d), Hospitals at 482.15(d), CAHs at 485.625(d):] (2) Testing. The [PRTF, Hospital, CAH] must conduct exercises to test the emergency plan twice per year. The [PRTF, Hospital, CAH] must do the following: (i) Participate in an annual full-scale exercise that is community-based; or (A) When a community-based exercise is not accessible, conduct an annual individual, facility-based functional exercise; or (B) If the [PRTF, Hospital, CAH] experiences an actual natural or man-made emergency that requires activation of the emergency plan, the [facility] is exempt from engaging in its next required full-scale community based or individual, facility-based functional exercise following the onset of the emergency event. (ii) Conduct an [additional] annual exercise or and that may include, but is not limited to the following: (A) A second full-scale exercise that is community-based or individual, a facility-based functional exercise; or (B) A mock disaster drill; or (C) A tabletop exercise or workshop that is led by a facilitator and includes a group discussion, using a narrated, clinically-relevant emergency scenario, and a set of problem statements, directed messages, or prepared questions designed to challenge an emergency plan. (iii) Analyze the [facility's] response to and maintain documentation of all drills, tabletop exercises, and emergency events and revise the [facility's] emergency plan, as needed. *[For PACE at 460.84(d):] (2) Testing. The PACE organization must conduct exercises to test the emergency plan at least annually. The PACE organization must do the following: (i) Participate in an annual full-scale exercise that is community-based; or (A) When a community-based exercise is not accessible, conduct an annual individual, facility-based functional exercise; or (B) If the PACE experiences an actual natural or man-made emergency that requires activation of the emergency plan, the PACE is exempt from engaging in its next required full-scale community based or individual, facility-based functional exercise following the onset of the emergency event. (ii) Conduct an additional exercise every 2 years opposite the year the full-scale or functional exercise under paragraph (d)(2)(i)

of this section is conducted that may include, but is not limited to the following: (A) A second full-scale exercise that is community-based or individual, a facility based functional exercise; or (B) A mock disaster drill; or (C) A tabletop exercise or workshop that is led by a facilitator and includes a group discussion, using a narrated, clinically-relevant emergency scenario, and a set of problem statements, directed messages, or prepared questions designed to challenge an emergency plan. (iii) Analyze the PACE's response to and maintain documentation of all drills, tabletop exercises, and emergency events and revise the PACE's emergency plan, as needed. * [For LTC Facilities at 483.73(d):] (2) The [LTC facility] must conduct exercises to test the emergency plan at least twice per year, including unannounced staff drills using the emergency procedures. The [LTC facility, ICF/IID] must do the following: (i) Participate in an annual full-scale exercise that is community-based; or (A) When a community-based exercise is not accessible, conduct an annual individual, facility-based functional exercise. (B) If the [LTC facility] facility experiences an actual natural or man-made emergency that requires activation of the emergency plan, the LTC facility is exempt from engaging its next required a full-scale community-based or individual, facility-based functional exercise following the onset of the emergency event. (ii) Conduct an additional annual exercise that may include, but is not limited to the following: (A) A second full-scale exercise that is community-based or an individual, facility based functional exercise; or (B) A mock disaster drill; or (C) A tabletop exercise or workshop that is led by a facilitator includes a group discussion, using a narrated, clinically-relevant emergency scenario, and a set of problem statements, directed messages, or prepared questions designed to challenge an emergency plan. (iii) Analyze the [LTC facility] facility's response to and maintain documentation of all drills, tabletop exercises, and emergency events, and revise the [LTC facility] facility's emergency plan, as needed. *[For ICF/IIDs at 483.475(d)]: (2) Testing. The ICF/IID must conduct exercises to test the emergency plan at least twice per year. The ICF/IID must do the following: (i) Participate in an annual full-scale exercise that is community-based; or (A) When a community-based exercise is not accessible, conduct an annual individual, facility-based functional exercise; or. (B) If the ICF/IID experiences an actual natural or man-made emergency that requires activation of the emergency plan, the ICF/IID is exempt from engaging in its next required full-scale community-based or individual, facility-based functional exercise following the onset of the emergency event. (ii) Conduct an additional annual exercise that may include, but is not limited to the following: (A) A second full-scale exercise that is community-based or an individual, facility-based functional exercise; or (B) A mock disaster drill; or (C) A tabletop exercise or workshop that is led by a facilitator and includes a group discussion, using a narrated, clinically-relevant emergency scenario, and a set of problem statements, directed messages, or prepared questions designed to challenge an emergency plan. (iii) Analyze the ICF/IID's response to and maintain documentation of all drills, tabletop exercises, and emergency events, and revise the ICF/IID's emergency plan, as needed. *[For HHAs at 484.102] (d)(2) Testing. The HHA must conduct exercises to test the emergency plan at least annually. The HHA must do the following: (i) Participate in a full-scale exercise that is community-based; or (A) When a community-based exercise is not accessible, conduct an annual individual, facility-based functional exercise every 2 years; or. (B) If the HHA experiences an actual natural or man-made emergency that requires activation of the emergency plan, the HHA is exempt from engaging in its next required full-scale community-based or individual, facility based functional exercise following the onset of the emergency event. (ii) Conduct an additional exercise every 2 years, opposite the year the full-scale or functional exercise under paragraph (d)(2) (i) of this section is conducted, that may include, but is not limited to the following: (A) A second full-scale exercise that is community-based or an individual, facility-

based functional exercise; or (B) A mock disaster drill; or (C) A tabletop exercise or workshop that is led by a facilitator and includes a group discussion, using a narrated, clinically-relevant emergency scenario, and a set of problem statements, directed messages, or prepared questions designed to challenge an emergency plan. (iii) Analyze the HHA's response to and maintain documentation of all drills, tabletop exercises, and emergency events, and revise the HHA's emergency plan, as needed. * [For OPOs at 486.360] (d)(2) Testing. The OPO must conduct exercises to test the emergency plan. The OPO must do the following: (i) Conduct a paper-based, tabletop exercise or workshop at least annually. A tabletop exercise is led by a facilitator and includes a group discussion, using a narrated, clinically relevant emergency scenario, and a set of problem statements, directed messages, or prepared questions designed to challenge an emergency plan. If the OPO experiences an actual natural or man-made emergency that requires activation of the emergency plan, the OPO is exempt from engaging in its next required testing exercise following the onset of the emergency event. (ii) Analyze the OPO's response to and maintain documentation of all tabletop exercises, and emergency events, and revise the [RNHCI's and OPO's] emergency plan, as needed. *[RNCHIs at 403.748]: (d)(2) Testing. The RNHCI must conduct exercises to test the emergency plan. The RNHCI must do the following: (i) Conduct a paper-based, tabletop exercise at least annually. A tabletop exercise is a group discussion led by a facilitator, using a narrated, clinically-relevant emergency scenario, and a set of problem statements, directed messages, or prepared questions designed to challenge an emergency plan. (ii) Analyze the RNHCI's response to and maintain documentation of all tabletop exercises, and emergency events, and revise the RNHCI's emergency plan, as needed.

This STANDARD is not met as evidenced by:

Based on record review and interview, the facility failed to conduct drills to test their emergency preparedness plan. This was evidenced by failing to provide documents to show two of two disaster drills were based on their emergency preparedness plan. This could result in the facility not being prepared for a disaster and cause possible harm to patients, staffs and visitors. This affected two of two smoke compartments.

Findings:

During record review with the Medical Assistance on 7/10/19, the EPP was reviewed.

At 12:40 p.m., the facility's record failed to provide documents to show two of two disaster drills were based on their emergency preparedness plan. The Medical Assistance confirmed the disasters drills records failed to indicate they were based on the facility's EPP.
