	This STANDARD is not met as evidenced by: Based on facility record review, and interview and it was determined the facility failed to perform a community based risk assessments as part of developing the facility's emergency plan (EP). Failure to develop emergency plans based on a community-based risk assessment may cause harm to the patients and staff during an emergency if . Findings include: On 8/1/18 the surveyors, along with the Executive Director reviewed the EP tag requirements to be included in an EP plan. Since the facility did not have a documented EP, the surveyors could not determine if risk assessments for the community or the facility were completed. The Executive Director confirmed on 8/1 and 8/2/18 that there was no EP plan developed that included a risk assessment for the community or for the facility. Failure to develop emergency plans based on community and facility risk assessments may cause harm to the patients during an emergency.
