(v) If the emergency preparedness policies and procedures are significantly updated, the CAH must conduct training on the updated policies and procedures. *[For CMHCs at 485. 920(d):] (1) Training. The CMHC must provide initial training in emergency preparedness policies and procedures to all new and existing staff, individuals providing services under arrangement, and volunteers, consistent with their expected roles, and maintain documentation of the training. The CMHC must demonstrate staff knowledge of emergency procedures. Thereafter, the CMHC must provide emergency preparedness training at least every 2 years.

This STANDARD is not met as evidenced by:
Based on record review of the facility Emergency Preparedness Plan, and staff interview, it was determined the facility failed to have documentation of new and existing staff trained in an Emergency Preparedness Plan. Failure to provide facility

	based training and testing tailored to the Emergency Plan may lead to untrained staff in an emergency situation and may result in harm to the patients during an emergency. Finding include: The State surveyor requested on August 02, 2018, documentation to demonstrate the facility's Emergency Plan included annual facility based training and testing for staff based on an established Emergency Plan. No documentation related to annual facility based training and testing for staff based on an established Emergency Plan was provided. The Executive Director confirmed during an interview on August 02, 2018, the facility did not have an EP plan to include annual facility based training and testing for staff based on an Emergency Plan.
