Statement of Deficiencies	**(X1) Provider/Supplier/CLIA Identification Number**	**(X3) Date Survey Completed**
	034525	08/07/2018
Name of Provider or Supplier	**Street Address, City, State**	
Saguaro Rehabilitation And Aquatic Therapy, Llc	305 North Plaza Drive, Apache Junction, AZ	

For information on the provider's plan to correct this deficiency, please contact the provider or the state survey agency.

(X4) ID Prefix Tag	**Summary Statement of Deficiencies** (Each deficiency should be preceded by full regulatory or LSC identifying information)
I0579	SANITARY ENVIRONMENT CFR(s): 485.62(b) The facility must maintain a sanitary environment and establish a program to identify, investigate, prevent, and control the cause of patient infections. This STANDARD is not met as evidenced by: Based on review of facility policies/procedures, observations during tour, and staff interviews, it was determined that the CORF failed to 1. maintain a sanitary environment and 2. ensure that patient supplies were not outdated. These deficient practices pose a high potential risk for breach in infection control. Findings include: 1. The surveyors observed the following during a tour conducted on 08/01/18 and 08 /02/18: Dust covered air vents in men's and women's locker rooms. Extensive water damage/marks traveling down the corner wall from the ceiling located in the corner of the room of the front lobby close to the physical therapy room used by patients. The Executive Director indicated that the building was old, during an interview conducted on 08/01/18 and 08/02/18, and confirmed the above mentioned environmental findings. 2. The facility's First Aid kit located in pool area contained the following outdated patient supplies:

	Antibiotic ointment 1/2 oz (1) expired 08/2011. "Cavicide" hospital grade disinfectant mixed with water in spray bottles. Unknown expiration date for the mixed product. Unknown mixture blend in the spray bottle. -Pool test chemicals outdated, 2013, and 2017. The Executive Director confirmed during an interview conducted on 08/07/18, the above mentioned dust covered vents, water damage marks on the wall (which the Executive Director relayed they have the insurance money to repair, however, no document confirmation was given to surveyors); and outdated supplies.
