	that is based on the emergency plan set forth in paragraph (a) of this section, risk assessment at paragraph (a)(1) of this section, policies and procedures at paragraph (b) of this section, and the communication plan at paragraph (c) of this section. The training, testing and orientation program must be evaluated and updated at every 2 years. This STANDARD is not met as evidenced by: Based on record review and staff interview, it was determined the facility failed to update their facility-based emergency planning, training and testing program, at least every two years. Failure to provide facility-based training and testing tailored to the Emergency Plan may lead to untrained staff in an emergency situation and may result in harm to the patients during an emergency. Finding include: Facility record review on 12/09/2020 revealed the last review of the facility-based emergency planning, training and testing program, was conducted on September 2018. The Executive Director confirmed on 12/09/2020, the facility failed to review their facility-based training and testing for staff based on their emergency preparedness plan.
