The [facility] must develop and maintain an emergency preparedness plan that must be reviewed, and updated at least every 2 years [annually for LTC facilities]. The plan must do the following:] (4) Include a process for cooperation and collaboration with local, tribal, regional, State, and Federal emergency preparedness officials' efforts to maintain an integrated response during a disaster or emergency situation. * * [For ESRD facilities only at 494.62(a)(4)]: (4) Include a process for cooperation and collaboration with local, tribal, regional, State, and Federal emergency preparedness officials' efforts to maintain an integrated response during a disaster or emergency situation. The dialysis facility must contact the local emergency preparedness agency at least annually to confirm that the agency is aware of the dialysis facility's needs in the event of an emergency. This STANDARD is not met as evidenced by: Based on record review and staff interview, it was determined, the facility failed to include a documented process for cooperation and collaboration with local, tribal, regional, State, and Federal emergency preparedness officials. Failure to include a process for cooperation and collaboration could pose a potential risk of harm to both patients and staff. Findings include: On 2/12/2020 the EP tag requirements to be included in an EP plan were reviewed with the provider. The facility did not have a documented EP, and it could not be

	determined if the facility had a process related to cooperation and collaboration with local, tribal, regional, State, and Federal emergency preparedness officials as part of the requirements for an EP plan. The administrator acknowledged on 2/12/2020, that the requirement include documentation for cooperation and collaboration with local, tribal, regional, State, and Federal emergency preparedness officials was not initiated to be part of their Emergency Plan.
