This STANDARD is not met as evidenced by: Based on interview and document review, the CORF failed to develop and maintain an emergency preparedness plan that included contact information for staff, patient's physicians and contract personnel. This placed the safety of the patients, staff, and visitors at risk during an emergency. Findings: During document review on 1/11/24 at 1400 hours, with the Administrator, the communication plan was requested and reviewed. The communication plan did not contain staff contact information as required. The Administrator acknowledged the finding and was not aware of the requirement in Appendix Z for Emergency Preparedness.
