(X4) ID Prefix Tag	**Summary Statement of Deficiencies** (Each deficiency should be preceded by full regulatory or LSC identifying information)
I0532	COMPREHENSIVE REHABILITATION PROGRAM CFR(s): 485.58 The facility must provide a coordinated rehabilitation program that includes, at a minimum, physicians' services, physical therapy services and social or psychological services. The services must be furnished by personnel that meet the qualifications set forth in 485.70 and must be consistent with the plan of treatment and the results of comprehensive patient assessments. This CONDITION is not met as evidenced by: Based on observation, interview, and record review, the facility failed to ensure 10 of 10 sampled patients received a comprehensive rehabilitation program by failing to ensure the following: 1. The facility's Medical Director (MD) participated in a care conference for one of 10 patients (Patient 9). (Refer to I 533). 2. Conduct monthly patient case review conferences for four of 10 sampled patients (Patient 8, 10, 4 and 5) in accordance with facility policy. (Refer to I 545) 3. A Therapy Aide did not perform direct patient care when a supervising physical therapist was not present for one of 10 sampled patients (Patient 5). (Refer to I 549) 4. The Occupational Therapist (OT 1) had the appropriate advanced practice certification from the California Board of Occupational Therapy (CBOT) prior to providing one of 10 sampled patients (Patient 8) with physician agent modalities (PAMs, the application of light, water, temperature, sound, or electricity to produce a response in muscles or other soft tissue). (Refer to I 552)

	5. One of 10 sampled patients (Patient 10) completed a screening and received follow-up education regarding the need for social work services. (Refer to I 553) The cumulative effect of these systemic issues resulted in the facility's failure to provide a comprehensive, coordinated program by qualified staff.
