(X4) ID Prefix Tag	Summary Statement of Deficiencies (Each deficiency should be preceded by full regulatory or LSC identifying information)
Z0261	<p>QUALIFICATIONS CFR(s): 486.36(a)(3)</p> <p>The OPO must have credentialing records for physicians and other practitioners who routinely recover organs in hospitals under contract or arrangement with the OPO and ensure that all physicians and other practitioners who recover organs in hospitals with which the OPO has agreements are qualified and trained.</p> <p>This STANDARD is not met as evidenced by: Based on record review the OPO (Organ Procurement Organization) did not ensure the credentials were verified for 4 physicians who recovered organs in 4 of 8 donor records reviewed. A review of the OPO policy entitled "Operating Room Procedures For Organ and Recovery" stated: "The Arkansas Regional Organ Recovery Agency will ensure that any visiting recovery personnel is credentialed to perform the recovery of the specific organ. This will be accomplished by referencing the AOPO online AOPO Cedentials Information Network (ACIN) database." 1. A review of donor record #5 revealed Dr. A recovered the heart. A review of the credential files revealed the OPO did not have credentials for Dr.A. 2. A review of donor record #4 revealed Dr. B. recovered Pancreas/Intestines/Liver. A review of the credential files revealed the OPO did not have confirmation of verification of credentials for the physician. 3. A review of donor record #3 revealed Dr. C. recovered the heart. A review of the credential files revealed the OPO did not have confirmation of verification of credentials for the physician. 4. A review of donor record #7 revealed Dr. D recovered the liver. A review of the credential files revealed the OPO did not have confirmation of verification of credentials for the physician.</p>
