	assessment at paragraph (a)(1) of this section, policies and procedures at paragraph (b) of this section, and the communication plan at paragraph (c) of this section. The training, testing and orientation program must be evaluated and updated at every 2 years. This STANDARD is not met as evidenced by: Based on the Rural Health Clinic's (RHC's) policy review, manual review, and interview, the RHC failed to maintain and update every 2 years an EP training and testing program. The findings included: Review of the RHC's policy "Emergency Preparedness", dated 03/15/2021, revealed the RHC will develop and maintain an emergency preparedness training and testing program that is based on the emergency plan and the risk assessment, policies and procedures, and the communication plan. The training and testing program will be reviewed and updated at least every 2 years. Review of the RHC's EP manual revealed that the RHC did not have an EP plan that was reviewed and updated every two years. During an on-site interview on 05/11 /2026 at 1:30 PM, the Administrator stated the RHC did not have documentation of updates available for review.
